

AgriNotes

by CHARLES WENBERG
JAMES N. HAWKINS and
Bannock County Extension Agents

Cattle grubs can be controlled with systemic chemicals. The time to take action is in the fall before damage is done. Best control can be obtained just after the first killing frost.

Chemicals used in the fall help to reduce the damage by killing the grubs in the animal's system. Some of the chemicals also control lice. A word of caution: some chemicals cannot be used on milking dairy stock because of residual problems. We have lists of suitable materials that you can use for grub control.

Congratulations to Jackie Roskelley, 4-H horse club member from Pocatello. Miss Roskelley won the outstanding agricultural 4-H demonstration at the Eastern Idaho State Fair. She was presented a wristwatch by Johnson Implement Company of Blackfoot.

DMA Dairy figures for August show the top production herd owned by Lyne Anderson, Tyhee—58 Holsteins averaged 1551 lbs. of milk and 46.2 lbs. of butterfat; second high herd was owned by Lyndon Green, McCammon—38 Holsteins averaged 1488 lbs. of milk and 45.9 lbs. of butterfat. Keith Olsen, Downey, with 37 Holsteins averaged 1137 lbs. milk and 41.1 lbs. of butterfat.

Now is the time to fertilize your lawns. Late fall fertilization is important to provide plant nutrients when cool-season grasses are building reserves and new shoots and roots for the subsequent spring and summer. Home owners should avoid fertilizing lawns during the hot, dry periods of July, August and early September.

Vernon Durlison, University of Idaho extension forester, passes on a few tips on choosing the right kind of fireplace wood for a cheerful fire with a minimum of effort and smoke:

- 1—Whatever wood is used should be dry, less than 20 per cent moisture.
 - 2—Wood seasoned through the summer and properly stored will be dry enough to burn well that fall or winter. Wood cut from standing dead trees will usually burn well without seasoning.
 - 3—All Idaho soft woods make good fuel. Though pine kindles more readily, fires of larch and Douglas fir last longer.
 - 4—Hardwoods ordinarily burn longer than softwoods and give off more heat per volume of wood. Aspen and cottonwood are the most prevalent in Idaho.
- A tip on how to maintain a good fireplace fire is to use at least two pieces of wood. Place a large log, at least 8 to 10 inches in diameter, in back. Use a smaller log in front. Keep the fire going between the two logs by occasionally adding smaller pieces of wood.

Reminders - Weak Calf Syndrome meeting at Elks Lodge in Salmon starting at 9 a.m. Thursday.
—Orders for windbreak seedling trees from the University of Idaho Tree Nursery are being taken at the county agent's office.
—Unpaid premium money from the North and South Bannock County Fairs is available at the County Agent's Office.

Channel Alteration Asked

The Department of Water Administration has received Application No. 29-S-21 from Cohen E. Cronney, Bancroft, to alter the channel of the Portneuf River by removing lava rock abutments from an existing bridge in order to construct a new bridge with concrete abutments.

Comments may be submitted to the Department of Water Administration, 1515 Lincoln Road, Idaho Falls, 83401.

Military Men on Leave Visit Families

KERRY J. LANE
Kerry J. Lane Sent to Sheppard

LARRY SAUNDERS
Larry F. Saunders Sent to Chanute

MICHAEL HUNTER
Michael S. Hunter Goes to Thailand

SAN ANTONIO — Airman Kerry J. Lane, son of Mr. and Mrs. William J. Lane, 49 Mountain Drive, has been assigned to Sheppard AFB, Tex., after completing Air Force basic training.

During his six weeks at the Air Training Command's Lackland AFB, Tex., he studied the Air Force mission, organization and customs and received special instruction in human relations.

The airman has been assigned to the Technical Training Center at Sheppard for specialized training in the transportation field.

Lane is a 1973 graduate of Pocatello High School.

SAN ANTONIO — Airman Larry F. Saunders, son of Mr. and Mrs. Henry F. Saunders, Rt. 4 Pocatello, has been assigned to Chanute AFB, Ill., after completing Air Force basic training.

During his six weeks at the Air Training Command's Lackland AFB, Tex., he studied the Air Force mission, organization and customs and received special instruction in human relations.

The airman has been assigned to the Technical Training Center at Chanute for specialized training in metalworking.

Saunders is a 1973 graduate of Highland High School. His wife, Sandra, is a native of Tligard, Ore.

ENDS LEAVE — Hal Dean Nelson, son of Mr. and Mrs. Alton Nelson, McCammon, has finished a two-week leave period after completing seven weeks of Recruit Training in San Diego, Calif. Nelson enlisted with Mike Campbell in the Guaranteed School and Buddy Programs this summer. He is in Radioman Class "A" School in San Diego for 14 weeks, before being assigned to a ship or station. He is a 1973 graduate of Marsh Valley High.

COMPLETES RECRUIT TRAINING — Michael Dean Campbell, son of Mr. and Mrs. Dean Campbell, McCammon, has returned to San Diego, California, after a two-week leave. Campbell was graduated from Recruit Training in San Diego and is now attending Radioman Class "A" School for 14 weeks, before being assigned to a ship. He enlisted for a guaranteed school assignment and on the Buddy Program with Hal Nelson. Campbell is a 1973 graduate of Marsh Valley High.

RANTOUL, Ill. — Airman Kevin L. Wakley, son of Mr. and Mrs. Ben Wakley, Malad, has been graduated at Chanute AFB, Ill., from the U.S. Air Force aircraft mechanic course conducted by the Air Training Command.

The airman who learned to maintain and service multi-engine jet aircraft, is being assigned to Travis AFB, Calif., for duty with a unit of the Military Airlift Command.

Wakley attended Malad High School.

Hayes, has been assigned to Udorn AFB, Thailand where he will serve as a maintenance technician on F-4 Phantom aircraft.

Hunter, a 1971 graduate of Highland High School, previously served at Malmstrom AFB, Great Falls, Mont., and has most recently been assigned to George AFB, Calif., for training in F-4 maintenance.

Hunter entered the Air Force in June 1971. He is married to the former Marla Littleford, daughter of Mrs. Marvella M. Littleford, 150 Bryan. They have a son.

Gregory S. Bond Promoted to SP.4

U.S. ARMY, Japan — Gregory S. Bond, 20, son of Mrs. Lillian R. Bond, 928 Wilson, was promoted to army specialist four at Camp Zama, Japan, where he is a finance clerk in the U.S. Army Finance and Accounting Office.

His father, Joseph H. Bond Sr., lives on Route 1, Millon-Freewater, Ore.

Blake H. Patrick Promoted to Cpl.

CAMP PENDLETON Calif. — Marine Cpl. Blake H. Patrick, son of Mr. and Mrs. Jack Patrick, Blackfoot, was promoted to his present rank while serving at the Marine Corps Base here.

Kevin L. Wakley Sent to Travis

RANTOUL, Ill. — Airman Kevin L. Wakley, son of Mr. and Mrs. Ben Wakley, Malad, has been graduated at Chanute AFB, Ill., from the U.S. Air Force aircraft mechanic course conducted by the Air Training Command.

The airman who learned to maintain and service multi-engine jet aircraft, is being assigned to Travis AFB, Calif., for duty with a unit of the Military Airlift Command.

Wakley attended Malad High School.

MV School Board Hears Report from Principal

ARIMO — Gary Brown, principal of McCammon Elementary School met with the Marsh Valley School District 21 board recently to present a review of his master's thesis from ISU.

Brown chose "Junior High School Site" for his research and has adapted it to the present Marsh Valley school district needs.

Conclusions and recommendations as presented from his study included a recommendation that Marsh Valley School District should have an on-going building program and that a site for a new Junior High School should be chosen well in advance of use. He said patrons and educators, of the MVSD favor a centralized Junior High School, and he proposed that the site for the JHS should not be under 20 acres.

Teaching programs and procedures should consist of, but not be limited to individualized learning, team-teaching and programmed learning. He said team planning which includes administration, teachers, students, custodians representative citizens, legal counsel, educational consultants and architects should be utilized, so all can

relate to school with its problems.

This team planning will then lead to better public relations within the MVSD he said.

The MVS board approved Brown's thesis title and invited him to review his study of these major issues.

Jay Christopherson school architect, discussed the costs and feasibility of a new junior high school in the district at Arimo and the cost of an Elementary School at McCammon to help the board evaluate reports coming in from their groups and patrons on a recent survey.

Information on a new insurance program as proposed by the Department of Education was reviewed. The board adopted a proposal stating an approved authorization counsel to serve as a representative in securing price quotations on insurance.

Veterans Day will be observed by the school district on Nov. 12 instead of the former date set of Oct. 22.

Supl. Gordon Loosle was authorized as administrator of all government title programs and the board approved the basic one title program.

For Sale: One Ghost Town

Special to the Journal
By LU MANOS
"Ladies and Gentlemen! We have first class Leeches for bloodletting."
It's now or never again. The sign on the old Barber Shop beckons prospective patients from a long dead era soon to die again.

The Ghost Town at Bliss, is being sold. Every board, nail, and wagon wheel will be hoisted to the auction block, on Sept. 29 and 30. Even the flagstone path leading to the church will go. The church... it goes too.

This may be the last time anyone can wander and reminisce in this collection of antiques and relics that took a lifetime to assemble. There are sheds full of old cars dating from 1916 to 1931. And here, the firehouse complete with engine guards the town with its hotel, general store, chinese laundry, little red school house, bank, cafe, sheriff's office, and Boot Hill.

Walking here you know this is not for real, but its nice to suspend disbelief and allow yourself to get a feeling for the way things must have been.

The house of memories holds beautiful old lamps and lanterns, coffee grinders, spinning wheels, butter churns, bells and thousands of items including a human skull and a calf with one head and two bodies. Across the town square you can belly up to the bar; but don't miss the spittoon.

A lifesize bust of George Washington stands guard in the tellers cage of the bank. No loyal American outlaw would steal from good old George. Who he?

Clocks and tea pots and genuine Indian rugs and arrowheads grade walls and showcases reminding us of a by-gone time of real elegance and natural worth.

So long Ghost Town. Thanks for reminding me.

Merits Badges

MIAMI, Fla. (AP) — Michael Herrera, 15, has gone as far as anybody can go in the Boy Scouts.

Herrera just earned his 118th merit badge, the total number of badges possible.
